

# Cedardale Charolais

## 7<sup>TH</sup> ANNUAL BULL & SELECT FEMALE SALE

SATURDAY, APRIL 17<sup>TH</sup>, 2010  
1:00 PM AT THE FARM

*“The Cattlemen’s Kind”*

# Cedardale Charolais

### SALE DAY PHONES:

Farm: (905) 986-4608  
Scott: (905) 242-5058  
Trevor: (905) 242-5097  
Ryan: (905) 242-2046

### SALE STAFF:

Ross Bailey – Auctioneer  
(905) 985-0697  
Brian Pascoe – Ring Man  
(705) 878-7026  
Carl Phoenix – Ring Man  
(705) 357-1531

### Bull Development:

Cedardale Bulls have been developed on a ration that was designed to maximize growth and structural development and minimize excess fat deposition. In our opinion, these bulls are sold in perfect working condition; bulls that are bred to perform, and fed to last!

### Delivery:

Bulls can be taken home immediately following the sale, or left with us free of charge until May 1, 2010 and delivered by us at shared cost. Bulls can be kept after May 1<sup>st</sup> at a cost of \$100 per month at the purchasers own risk.

### Buyers Unable to Attend the Sale – Sight Unseen Purchase Plan:

Simplify your selection process by giving us a call today. You know what you want in your breeding animals, we know the best potential of the bulls and females selling and will easily be able to satisfy your specific needs. Contact Scott, Ryan or any one of our capable sales representatives to discuss the sale cattle.

*All purchases made in this manner are 100% satisfaction guaranteed!!*

Fellow Cattle Enthusiasts,

The Nesbitt family, takes great pride in welcoming you to Cedardale Farms on April 17<sup>th</sup>, for the seventh annual Cedardale Charolais production sale. The new decade brings fresh optimism that the historic cattle cycle will again emerge with a positive influence on the entire cattle cycle. We are very proud to be a seedstock source for many progressive cattle operations around the country. It is certainly our pleasure to be your host. We sincerely thank all past buyers and bidders for your continued support; it is truly appreciated!

For those of you that are unfamiliar with our farming operation Cedardale Farms consists of 1400 acres of crop land and 150 registered Charolais cows. The cattle side of our farming operation has completed the transition from commercial to purebred Charolais cows and we certainly have not forgotten the fact that we were commercial cattlemen first. We remain totally committed to our goal of producing Charolais Bulls designed for commercial cattlemen. We have never chased “fads” or lost sight of what the industry demands. We are proud of the group of bulls that we have to offer you this year. They are solid and incredibly uniform. We strive to produce bulls that encompass the economically important traits that are imperative in the cattle business; white bulls that are thick but still smooth, structurally sound, have excellent temperaments and are like peas in a pod. Moderate birth weights, excellent calf vigour and heavy weaning weights are what count here at Cedardale. When you combine those three traits your end result is the most pounds of calves to sell each fall. These are Charolais bulls produced by Cattlemen for Cattlemen; simply said these bulls are the “Cattlemen’s Kind”. When you arrive at the sale you can be assured that you are getting the first chance at all of our bulls. No bull has been sold prior to sale day. All bulls offered for sale have been bred, born and raised at Cedardale Farms.

We are better farmers than photographers. There are a few pictures included in the catalogue that represent a small sample of the bulls on offer. Pictures are often deceiving and do not provide a realistic image of the actual animal. For these reasons there are not pictures of each animal in the sale offering. We would prefer that you stop by the farm prior to, or on the day of the sale to view the cattle in person, or call us to discuss the sale offering. We are confident that you will not be disappointed.

The Charolais business is exciting and rewarding for our family. We truly enjoy seeing our customers’ results with their calves. Over the past few years, we have made an effort to visit, watch your calves sell or talk with you about your sale results. As cattle producers, you can be proud of the end product you are selling. Week in and week out your calves sired by Cedardale bulls are at the top of nearly every sale from October to March.

Over the past few years we have witnessed some of the biggest quality/price spreads in history. More recently we have seen that those heavy calves certainly dollar up a lot higher at sale time. This market has shown us that we need performance, uniformity, quality and the “right kind” of cattle. That is what our bulls will deliver. One thing that we know for sure is that none of us can control the market; we can however control our place in that market.

The feedlot industry’s demand for Charolais calves is stronger than ever. The feeders have sent the message that quality and uniformity matter. Ensure a high quality 2011 calf crop with a Cedardale Charolais Bull.

The offering this year consists of 23 stout made, high performing Charolais bulls. Please note that 22 of the Charolais bulls are polled with many of them being double or quite possibly homozygous polled. Once again this year the bull offering will include four Purebred Charolais X Purebred Red Angus hybrid bulls. These bulls offer big league Charolais performance, solid red coloured hair coats, hybrid vigour, tremendous calving ease and they are all polled to boot! These hybrid bulls are the result of a planned breeding program with a focus on consistency of product. In other words, these hybrid bulls have the same information and high quality genetics behind them that the Charolais bulls do and have been designed to fill the needs of a small percentage of commercial cattle operations. These bulls will sell in 5 distinct sire groups consisting of tried, tested and true genetics along with some fresh, new, exciting genetics available for the first time. There will be an excellent selection of affordable bulls in everyone’s price range.

In addition to the bulls, a special segment of this year’s sale is the registered Charolais open replacement females. This elite offering consists of 18 open Charolais heifers that come from the heart of our breeding program. These heifers come from the same industry leading genetics as the bulls that are offered in the sale. Whether you are looking for heifers destined for seedstock production or just good solid replacement females for your commercial operation these heifers will not disappoint! Juniors and 4-H enthusiast’s; these heifers definitely deserve your appraisal as well. These heifers will be very affordable and extremely high in quality.

We appreciate each and every one of you, our fellow cattlemen, and we will continue to work hard to earn your trust, respect and future business with good cattle and good service. As a seedstock supplier, we take seriously our responsibility when it comes to customer service.

Please consider this sale offering with confidence. Know that the Nesbitt family stands ready to be of assistance before the sale and, more importantly, after the sale. We value the many friendships that have resulted from our involvement in the beef industry and we look forward to the opportunity to expand those through this event. We invite you to join us April 17<sup>th</sup> for the sale, some hospitality and a chance to visit with many area cattle producers. If we can be of further assistance please don’t hesitate to call on us.

Looking forward to seeing you on sale day:  
The Nesbitt Family

### Birth Weight Information

Calving ease is most often related to birth weight of a bull. This is partly true, but there are other factors that influence calving ease. Nutrition, gestation, and calf shape play key roles. The cow is involved in more than 50% of the calf. The mature size of the cow sizes to your program. On average our cow sizes will be larger, which in turn will amount to less birth weight on smaller cows. EPD's for calving ease and birth weight accompany each lot.

### How Much Can You Afford to Pay for a Bull?

#### CATTLEMEN'S FORMULA

Increase in Pounds per Calf from a High Performance Bull

- X Number of cows bred to him per year
- X Number of years you keep the bull
- X Expected Selling Price of Calves
- = **Additional dollars you can pay for a good bull**

Example: A bull who adds 30 lbs. to the weaning weight of each of his calves mated to 25 cows per year for 4 years and selling the calves for \$1.00/pound:

$$30 \times 25 = 750 \times 4 = 3000 \times \$1.00 = \$3000$$

This means that a good bull is worth an additional \$3000 more than the average bull who will keep your weaning weights the same. Keep in mind this equation does not include the increase in value due to calving ease, higher quality replacements, yearling growth, feedlot gain and better carcass quality. Use this formula and put your own figures into it and see what you can afford to pay.

---

## Horned – Scurred - Polled...

**Horned:** An animal with a horn growth affixed to the skull that has or has not been removed.

**Scurred:** An animal with rudimentary horn growth that will not develop into a horn. Scurs are the result of an independent gene unrelated to either the horned or polled gene.

**Polled:** An animal with absence of horn growth. (An animal can have scurs and still be genetically polled.)

---

## Terms & Conditions...

---

## Notes

**Terms:** The terms of the sale are cash or cheque. Settlement to be made immediately after the completion of the sale, payable at par to Cedardale Farms. The right of property shall not pass until after settlement is made. All settlements must be made before any cattle will be released.

**Bidding:** Each animal will sell to the highest bidder... no by-bidding will be permitted.

**Disputes:** Bidding will be reopened between the parties involved in dispute. If no further bid is made, the buyer will be the person from who the auctioneer accepted the last bid. The auctioneer's decisions on all disputes will be final.

**Announcements:** All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to such disclosures.

**Breeder's Guarantee:** Should any bull fail to prove a breeder after being used on females known to be breeders, the matter shall be reported in writing to the seller within six months following the date of purchase or six months after the bull has reached fourteen months of age. The seller will have the right and privilege of six months to prove the bull a breeder. No guarantee is given that semen collected from the bull will freeze.

**Exception Guarantee:** In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, this guarantee shall be null and void.

**Certificate of Registration:** Each animal will carry papers issued by the Canadian Charolais Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

**Health:** All animals in the sale have met all necessary health requirements.

**Liabilities:** All persons attend the sale at their own risk and the seller and sale manager assume no liability, legal or otherwise, for any accidents that occur.

**Mail Bids:** Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representative. Bids must be received in sufficient time prior to the sale.

**Purchaser's Risk:** Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

**Insurance:** We strongly recommend that all buyers insure their purchases. Any buyers that leave their bulls at Cedardale farms for any period of time following the sale are aware that they assume all risk with their purchases.

**Thank you for attending the  
2010 Cedardale Annual Bull & Select  
Female Sale...  
We hope to see you next year!!**

**OPEN HOUSE  
&  
CATTLE VIEWING AT 11:00 AM  
SALE AT 1:00 PM**

Follow Hwy. 7A East of Port Perry, 3 km East of Nestleton,  
Turn North onto Johns Rd., East onto Malcolm Rd.,  
Then North onto Cedardale Rd., first farm on the left.

**Inquiries and Visitors are ALWAYS Welcome**
